RIP: We are sad to pass along the news that DXer Dan Sys passed away on October 14. Dan was best known among DXers for his encyclopedic knowledge of Canadian radio history. See Jon Pearkins' Musing this issue for more information.

Message from NRC HQ on Renewals: Once again, I would like to remind those renewing that there is a lag time between the time your check or PayPal renewal is sent by you, transit time to the PO Box, pickup time at the PO Box, and when your next mailing label is printed. If after 30 days your address label has not been corrected to a new expiration date that would be the time to contact us at the Membership. Please save yourself duplicate renewal checks, the notes and extra postage during that lag time. – Wayne

Zoom Session on the SDR# Co-Channel Cancellor: Electronic subscribers to *DX News* will get this issue in time to join our virtual mutual learning session to share what we've learned about using the powerful new SDR# co-channel canceller feature. We'll meet over Zoom on **Saturday, October 26**, at 12:00 noon Eastern time (1600 UTC).

To get the Zoom link, please send an e-mail to NRCZoomEvents@gmail.com and you'll receive the login information. If you're interested but can't join us live, send an e-mail to the same address and we'll send you a link to a recording shortly after the event. All DXers are welcome to participate, regardless of club membership or affiliations.

--- NOTES FROM CANADA ---

Jon Pearkins jon@pearkins.com

It’s been a sad week after the death of **Dan Sys** due to cancer on Canadian Thanksgiving. He almost died years ago, but time passed and we all forgot how ill he had been, so it was a big surprise. Dan was well known as the author of the monthly *Canadian Radio News*. RIP, Dan!

Fans of CHED-630 Edmonton will be interested in a book by recently retired News Director, Bob Layton. Titled Welcome to Radiol!: My life in broadcasting, so far. It covers all the crazy things that happened during his half century at CHED, as well as his first job, at CKNL in Fort St. John, B.C. It is now available from Amazon. I cannot speak for the U.S. but Amazon’s Canadian site sells copies of the book printed by Amazon at Acheson, a suburb of Edmonton.

The second Monday in October (the 14th this year) is Thanksgiving in Canada. Unlike the U.S. version of Thanksgiving, Canada’s annual family reunions occur at Christmas, thanks to December 26 being a holiday, Boxing Day, minimizing the vacation days needed to be off work from Christmas to New Years. Christmas Day is the only remaining day of the year when virtually all retailers are closed. Even radio stations operate with little or no staff, running special programming like the 12-hour “Christmas Is” which was produced in the mid-1980s by CKNW New Westminster, BC and is still aired by some Corus stations. And, yes, Thanksgiving in Canada sees more turkeys consumed than any other day of the year.

630 CHQT AB Edmonton – Swapped frequencies with CHED at 0200 October 9. They initially ran a simulcast of CHED-880, fading it down for an announcement of the CHED change in frequency to 880 then faded back up. That did not last long, and by that evening, it was just the announcements with a few seconds of dead air between them. The announcements were recorded by on-air hosts, are of random lengths averaging 30 seconds, and are rotated. If you consider call letter changes as separate DX log entries, this is a unique and short opportunity to log CHQT-630, as there is no word from the station as to when the 630 transmitter will be turned off forever. This is the second frequency change for CHQT; it began in 1965 on 1110, but found KFAB interference at night a major problem as the population increased south of the transmitter site, prompting the move to 880 in the mid-1980s. CHQT is currently the

newest Edmonton station still on AM. Ironically, when CHQT goes off the air, CHED will inherit the title of newest Edmonton station still on AM.

- 880 CHED **AB Edmonton** – The call letter change was made at 0200 on October 9 when the official move of CHED from 630 to 880 occurred.
- 920 CBKG **BC Granisle** – The CBC has applied to the CRTC to convert this 40 Watt LPRT to CBYG-4-FM on 105.9 MHz with 106 Watts non-directional at 142 feet below average terrain (EHAAT). It will continue to simulcast CBYG-FM Prince George, BC, part of the CBC Radio One network.
- 990 CBQF **YT Carmacks** – The CBC also wants to move this 40 Watt LPRT to FM, without a change in call letters, on 105.1 MHz with 852 Watts directional at 585 feet above average terrain (EHAAT). It will continue to simulcast CFWH-FM Whitehorse, YT, part of the CBC Radio One network.
- 1260 CKHJ **NB Fredericton** – Although the station has been operating with only 32 Watts non-directional at night for quite a while, the reduction in night power from 10 kW directional has just been listed as completed by ISED in September. The most likely reason for the delay is that the technical certification for the 32 Watts was just received. The station slogan is currently “Pure Country 103.5” reflecting the frequency of 250 Watt rebroadcaster CKHJ-2-FM in nearby Oromocto.

- 1710 Arggh - 10/4 1810 – “Album Rock Radio” – Among rock music, ID by male robo voice: “You are listening to Album Rock Radio” and then female robo voice: “You are tuned to A.M. Seventeen Ten.” Peculiar: the ID “17-10” occurred exactly at 17-10 local time. Coincidence? Strong on caradio. (EB-AL)

--- DX LOGGINGS ---

Sign-off at 1900 mid-sentence. **New**, and since this Ohio station has their transmitter south of the Ohio River, it’s **Kentucky #08**. - 610 KDAL MN Duluth – 10/7 0709 – Newscast just ending, followed by weather (frost advisory); more typical wake-up fare followed on the “KDAL Morning Show.” Fair, mixing with others. (JW-CO)
- 610 KFNZ MO Kansas City – 10/6 0741 – Local sports talk with Fescue and Dusty hosting; slogans include “Your home for the Royals,” “The Home of the Chiefs,” and “Your home for Royals baseball, 96-5 The Fan;” legal ID at ToH. Ex: KCSP. (JW-CO)
- 610 KILT TX Houston – 10/7 0745 – Local sports talk, mostly about Texans football; “Sports 610;” and “The Texans play here.” Fair signal, and surprisingly little QRM. It’s been a while since I’ve heard this one. (JW-CO)
- 620 KMNS IA Sioux City – 10/16 0739 – Poor, with talk of Sox and Cubs. 515-284-XXXX “KXNO Morning Rush” (Iowa sports). (JJR-MI)

- 660 KTNN AZ Window Rock – 10/18 0624 – After KKOB and KOA, I test my luck, get up early and tune the radio to 660. Third day in a row to push the Western frontier! IMMEDIATELY they yell at me “KTNN Window Rock” and some other place, then an ad for ‘St. Jude Hospital,’ ad(?) about Arizona corporations and water access, into chanting. Now that’s a quick success. Darn it, my FCC-AMQ printout pdf doesn’t have it since I limited it to 2000 km and this one is further than that! Had to make a new one, there are worse things in life. Strong start but quick to fade. **Arizona #01!** (EB-AL) [I plot you at 1278 miles or 2056 km – BH]
- 660 KTNN AZ Window Rock – 10/16 0440 – Man with convenient “KTNN Window Rock-Tohatchi-Mexican Springs” ID into George Strait’s ‘Overnight Male.’ Fair. They often switch up the third city in the ID with various Reservation towns. (TK-FL)

- 660 KEYZ ND Williston – 10/7 0825 – Area ads; “Keys News Radio” IDs. Fair, mixing with KLTT-670’s partially nulled IBOC noise. (JW-CO)
- 680 KKYX TX San Antonio – 10/14 0714 – Country music parallel to their webstream. Weak, with splatter from WJOX-690. **New, for Texas #11.** (EB-AL)

- 770 KKOB NM Albuquerque – 10/14 0705 – Tuned in to man: “KKOB news time coming up on 5:07. . . with our partner The Albuquerque Journal . . .” and local/state news. Amazingly strong on peaks. Presumably on one tower after the stupid balloon took out one. Some reports say it’s at 12.5 kW, another at 5 kW. Heard a few times before, but never this well. (TK-FL) [Per the STA request, filed on October 15, KKOB requested U1 25 kW days / 12.5 kW nights using their #2 tower (134.2 meters in height). Presumably, they are using those power levels – BH]
- 770 KKOB NM Albuquerque – 10/15 0715 – With WABC disappearing, there is another “newsradio” which I was hoping for after tip from TK in FL. Soon ID: “Newsradio KKOB,” report about Kamala Harris, a middle school in Colorado, and a local warehouse fire. I had the ID but nevertheless also checked the webstream, which matched – I guess I needed to convince myself it really happened. New distance record at 1828 km/1136 mi, furthest west, new station, new state! Thanks to the hot air balloon that took down the directional tower. (EB-AL)

- 770 WABC NY New York – 10/15 0655 – Talk about helping Israel, ID: “77 WABC.” Strong. Curiously, still a new one for me, but wait – transmitter is in NJ, not NY. Second such case after WPHT, no “proper” NJ station yet! (EB-AL)
- 770 WAIS OH Buchtel – 10/19 0718 – Poor, with ‘Five O’Clock World’ by the Vogues and ????, and “WAIS” into station promo. (JJR-WI)
- 780 WIIN MS Ridgeland – 10/19 0815 – Ads for downtown Ridgeland, slogan: “. . . Blues 102.1” into blues music. Nice, and // web, but very weak. Total fade-out after a few minutes. That’s it for today; sun is up! **New, for Mississippi #07.** (EB-AL)

- 810 WSJC MS Magee – 10/19 0808 – Talk about wildfires in California, but it’s not news, it’s about the Book of Revelation. “Get the book ‘Spiritual Israel,” then caller Martha from California. But at this time of *day*, it can’t be much but this 50 kW that fights with almost local WCKA. Yes, parallel to their webstream. **New, for Mississippi #06.** (EB-AL)
- 810 WWOS SC Walterboro – 10/17 0708 – “WWOS & WPOG,” prayers for Hurricane victims, call 803-536-42XX. Logged 9-20-1985 as WQIZ. Poor. (JJR-WI)

- 850 KOA CO Denver – 10/16 0712 – This one is very, very hard due to local WXJC, but there is something in the background. I have to combine the Sony with a passive loop, holding them both at a very particular angle, then the loop reduces the WXJC signal just enough to understand that other station. But daren’t I move an iota. And yes, an ad with a 303 phone number is followed by news about Colorado public health, Kamala Harris, and the NFL. Report about “C-DOT” repairing a bridge, that could be Colorado Department of Transportation [and it is, I find later], and finally ID “Thursday night football on the official home of the Broncos KOA 850 AM and 94.1 FM.” Made my day! **Colorado #01.** (EB-AL)
- 850 WKNR OH Cleveland – 10/14 0528 – End of local spots, “. . . here on ESPN Cleveland” then back to ESPN spew. (TK-FL)
- 880 KJOZ TX Conroe – 10/12 0645 – Soft Spanish vocals, not sure if Christian, with “Radio Visión Latina 106.1” after almost every song. That’s a network group, new format here. Listed as Tropical in the NRC AM Log. The 106.1 must be K291CE Houston at 245 watts. (TK-FL)
- 900 WFIA KY Louisville – 10/18 0655 – “Grace to You program airs at 1 PM Saturdays on WFIA.” Poor, but on top. (JJR-WI)

- 970 WTBF AL Troy – 10/15 0918 – Another station appeared on this channel while driving through town, now sports talk about college football, ads, “This Day in History” presented by some business in “Troy.” Also parallel to webstream. 1 kW at 185 km, not bad! **New, for Alabama #57.** (EB-AL)
- 970 KESP CA Modesto – 9/26 2259 – Surprisingly on top of channel, over KNWZ, with top-of-hour ID liner: “KESP Modesto ... home of the San Francisco 49ers, Sports Radio AM 9-70” and back to Infinity Sports Network programming (Bart Winkler). Usual pests KHTY and XEJ were both missing tonight. 414 miles. **NEW, for California #356.** (TRH-CA)
- 970 WNIV GA Atlanta – 10/15 0850 – Christian program “Leading the Way” about Isaac. Parallel to webstream, can’t be from very far away with the Sun that far up. Fair, with fading on caradio. **New for Georgia #26.** (EB-AL)

- 980 CJME SK Regina – 10/6 0748 – Poor, with “. . . on 980 CJME, and the ??? Encore, on 980 CJME.” Through WCUB. Pure luck! **Also snagged on 10/14 @ 0805** – “Regina Fire working on a fire in the 600 block of Angus Street.” Poor, but Alone. (JJR-WI)

Makes me feel a little better. **New, for Florida #12.** (EB-AL)
- 1000 KTOK OK Oklahoma City – 10/12 0540 – “The News of Oklahoma, KTOK” then back to C2C. (TK-FL)
- 1000 KSTA TX Coleman – 10/13 0725 – ‘This Week in Texas’ program from the Texas State Network into bottom-of-the-hour ID: “Your favorite Country Classics on Radio 1000, KSTA.” **New! Texas #52.** (SD-MN)
- 1010 WHIN TN Gallatin – 10/19 0705 – Familiar hits: ‘Every Breath You Take’ and ‘Kiss of A Rose.’ ID: “100.7 WHIN 10-10 AM.” Very strong, so must be on daytime power already, with fading. **New, for Tennessee #25.** (EB-AL)

- 1070 KSKK MN Verndale – 10/17 0724 – Announcer mentioning the “Relevant Radio app.” Poor / No WTSO. Only fit. **(JJR-WI)**
- 1070 KATQ MT Plentywood – 10/6 0418-0422 – Coast to Coast AM (C2C) special offer in one of the many national ads for insurance, investment and health supplements threw me off as KATQ does not appear to carry C2C but “slash George” was mentioned for the web site and saying “George” when phoning was also mentioned. The ads ended with a “10-70 KATQ” ID into two Country songs without a splitter in between. Mediocre conditions with no other Montana stations stronger than normal, so almost certainly on 5 kW day power, as they were dominant with only the briefest of traces of KNX or KSKK. **(JP-AB)**
- 1070 WFLI TN Lookout Mountain – 10/17 1917 – Wait, there is something under local powerhouse WAPI. Finding the null, it’s actually strong, with ads for ‘Big Lou,’ and a Hyundai store on Alabama Highway in Ringgold, Georgia (just to confuse the DXer about which state we’re in). Promo for football for Chattanooga on WFLI, 423-777-5577 is in Chattanooga too, and ID: “We’ve got you covered 96.1 100.something and 1070 WFLI.” Into show: “Southern Sports Today.” **New, for Tennessee #24,** and giving me hope for catching KNX one day. - 1110 KVTX TX Mineral Wells – 10/10 0644 – Mid-eastern pop music. Slogan: “Don’t upset us, keep listening!” Jingle “104.9.” Also heard 10/12 0700 with new slogan “Fun Asia Radio 104.9.” New, for Texas #09. Quite strong in WBT’s null, which is weird since both stations are on a straight line through Birmingham and KVTX shouldn’t even beam very much in this direction. ‘Fun Asia’ has 15 radio channels on their website to choose from, so don’t be surprised if they keep switching which one goes out on 1110. **(EB-AL)**

- 1140 WBXR AL Hazel Green – 10/7 1338 – Sermon by a yelling preacher, ID for “Sowing the Seed Ministry,” then program promo for something “. . . here on WBXR.” Fair signal today. (EB-AL)

Now, however, there is an announcement: “For talk, go to our sister station, KFUE.org” which also IDs this one. I’m still waiting for Missouri #02, since this one is the second Missouri station that has their transmitter actually in Illinois, after KMOX-1120. Is the soil no good west of the mighty Mississippi? **So, this counts as Illinois #10 for me. (EB-AL)** [There are many who disagree with you counting a station’s state where the transmitter is located versus the city to which the station is licensed. But, as long as you continue with this as you do, I guess it’s OK – BH]
- 1380 KOTA SD Rapid City – 10/16 0450-0457 – Fading in for five minutes, then fading out for two minutes despite normally un-nullable KRKO. Easily discernible with Red Eye Radio against KRKO continuous Oldies. **Logged again on 10/18 @ 0037-0115** – Mostly all alone in KRKO null; about one third of the time, there was no sign of KRKO, in otherwise poor DX conditions. All Sports but no network ID heard until 0110 “Broncos Radio Network” and lots of ads mentioning Colorado and 303 Area Code. Finally had to turn on my computer and find a list of stations carrying the Denver Broncos games. KOTA was the only station listed on 1380. Never expected a Denver Sports team to be aired in South Dakota! (JP-AB)
- 1380 KRCM TX Shenandoah – 10/14 0734 – Live Spanish man hosting morning show with mentions of loving God, lots of “Radio Aleluya” mentions, “Good morning, buenos días” and long chain of net call letters/city of licenses at the top of the hour. (TK-FL)
- 1380 KRKO WA Everett – 10/16 0457 – Simple “KRKO Everett” ID by male announcer, with continuous Oldies otherwise. Strong signal despite mediocre conditions, though not as strong as sister station KKXA-1520 Snohomish, Washington. (JP-AB)

- 1410 WKKP GA McDonough – 10/3 1859 – Country music, ID: “FM Translator W265DG and . . . AM.” Quite strong, but right then switched to night power, and after that just barely discernible in the soup. (EB-AL)
- 1410 WHLN KY Harlan – 10/1 2000 – NBC News, ads for ENT openings, “South East Kentucky Weather,” “it’s eight oh four” (so they are on Eastern Time), jingle: “W _ LN,” into a Dua Lipa/Elton John song. Quite strong with severe fading. **New, for Kentucky #04! (EB-AL)**
- 1420 WRCG GA Columbus – 10/4 1345 – Rock music, and slogan: “Classic Rock 105.5,” which also appears on their website. Commercials for the Columbus area. Parallel to the webstream. Weak with fading. New, but this Georgia station has its tower on Alabama soil in Phenix City. **Alabama #54. (EB-AL)**
- 1420 WHBN KY Harrodsburg – 10/1 2201 – NBC News, Kentucky News Network, “Hometown Radio Network.” **New station, for Kentucky #05! (EB-AL)**

- 1440 KTUV AR Little Rock – 10/1 2250 – Tuned in to hear slogan: “. . . Motown Radio,” then weather (drier), and “. . . right here on the Cat” into an Aretha Franklin song. Weak, with fading. **New, for Arkansas #02! (EB-AL)**
- 1440 WPRD FL Winter Park – 10/1 2300 – Not sure whether the scratchy French/Haitian a littler earlier belonged to this station, but at ToH I heard a partial ID: “. . . escucha . . . Orlando.” Weak and parallel to their stream. **New, for Florida #10. (EB-AL)**
- 1440 KCHE IA Cherokee – 10/14 0739 – Poor, with “Cherokee Community Calendar on KCHE . . .” and ad for ‘? Bike Shop’ in LeMars. (JJR-MI)
- 1440 WGVL SC Greenville – 10/17 2000 – There is some Catholic talk, but too many options for that and they sign off at ToH without any ID. Instead I catch now the “Black Information Network” ID and since it won’t be 1 kW from California, it must be WGVL. **New, for South Carolina #02,** from the same transmitter site as South Carolina #01, WESC. (EB-AL)
- 1450 KZZJ ND Rugby – 10/15 0737 – Red River Farm Network, “208-2886 in Rugby.” Ad for ‘Saint Michael’s Furniture.’ Poor, but Atop. (JJR-MI)
- 1470 KBSN WA Moses Lake – 10/3 0806 – Out of a C&W song with a “Real Country KBSN” ID, then quickly disappeared. Faded in for the ID then faded out – an amazing reversal of Murphy’s Law. **A new one here; Washington #32. (JW-CO)**
- 1490 CJSN SK Shaunavon – 10/15 0753 – Very poor, but “1490 CJSN” with Eagles and J. Geils songs, along with a Legal ID with “Golden West” mention and news made it. **NEW! (JJR-MI)**
- 1500 WPJX IL Zion – 10/19 0811 – Poor, though Metal Rock and “Rebel Radio Chicago” replaced KSTP. Rare! (JJR-WI)
- 1520 KOKC OK Oklahoma City – 10/14 0853 – Trump talk, promo for program about roof replacement: “. . . this Saturday at 11 am on KOKC AM 1520 FM 95.3.” Why is KOKC missing from FCC? Are they a 50 kW pirate? Anyway, **new for me, Oklahoma #03. (EB-AL)** [FCC AM Query has been missing a bunch of stations for a while. – DY]
- 1570 WIGO GA Morrow – 10/14 0635 – Urban/Soul/Rap, man host: “Lock it in 1570 AM WIGO . . . your favorite gospel.” (TK-FL)
- 1570 WWCK MI Flint – 10/15 0748 – Very poor, with “Greatest Hits – K107.3” between songs. This, after XERF was in for 30+ minutes. (JJR-MI)
- 1590 WHOT FL Palm River-Clair Mel – 10/3 1930 – Unknown accent in the soup, eventually strong enough to identify as French, mentioning “Flo-ree-dha,” then interview with an English-speaking woman, and the interviewer translates into (almost) French. This got to be Haitian Creole. Weak, but fair in the peaks. **New, for Florida #11. (EB-AL)**
- 1600 WAOS GA Austell – 10/3 1908 – Spanish talk, ads with area code 658 (Jamaica!), one English ad (State Farm) amidst Spanish, “la radio del futbol,” parallel to web. Fair signal, sounding more like they’re still on the 20 kW daytime power. **New, for Georgia #23. (EB-AL)**
- 1600 KUSH OK Cushing – 10/8 0257 – Country Music into TOH ID: “This is Emily Hayes and you’re listening to 1600 and 101.5, KUSH Cushing, Real Country, The Kush.” **NEW! for Oklahoma #17. (SD-MN)**
- 1640 WSJP WI Sussex – 10/9 1905 – Interview parallel to Relevant Radio stream. Quite strong on caradio. **New station and Wisconsin #1! (EB-AL)**

STATION NEWS

- 600 WICC CT **Bridgeport** – Added FM simulcast on 95.9 MHz taking over the facilities of the former WFOX-FM in Norwalk. They can now be heard from the Bronx to New Haven on FM. They are also heard on FM translators through HD subchannels on WEBE-Westport and WPLR-New Haven. These stations are all under the same ownership. A week after WCBS-880 left the airwaves, WICC put all of the aforementioned changes into effect and started calling itself “The Voice of Connecticut.” They contracted with CBS to provide hourly newscasts and hired Brigitte Quinn, a veteran news anchor who spent many years at WINS-1010 and WCBS-880. Last week she started the same interview show she did on WCBS, from noon to 2pm on WICC. WICC has also modified its morning and afternoon drive time shows by having traffic and weather updates every ten minutes on the eights, also just like WCBS. In essence WICC is trying to replicate WCBS for its CT listeners. (TF-NH)
- 1230 WFAS NY **White Plains** – Shut down after some 90 years as a suburban NYC broadcaster. It wasn’t a big surprise since a year and a half ago they turned the station into a digital station transmitting 24/7 in HD mode only. It was kind of an experiment. They carried some syndicated talk and sports shows but few people ever listened to the new digital format since you need an HD radio to decipher the broadcast. These days it is tough to even find an HD radio to purchase as the few manufacturers who came on the scene 20 years ago when HD radio tried to make inroads in listening, turned out to be a failure and they are all gone now. If WFAS-Digital had any listeners at all they were no doubt people whose car radios had HD-AM-FM radios. (TF-NH)

PAN-AMERICAN DX

- 570 **CUBA** *R.Reloj*, Santa Clara OCT 13 0800 – Good; “El año 66 de la revolución desde la Habana Cuba transmite Radio Reloj,” syncopated clock and RR Morse code. [Conti-NH]
- 630.05 unID OCT 8 0703 – Het upon 630 signals. Nothing this far off at mwoffsets. [Hauser-OK]
- 720 **MEXICO** XEDE *La Lupe*, Saltillo, Coah. OCT 10 0558 – Something in Spanish with WGN nulled on the XHDATA D808; 0600 Mexican national anthem, brief choral version, and ID mentioning *La Lupe*, therefore per IRCA Mexican Log, it is XEDE. Power 8/0.25 kW so maybe on day power. Name presumably alludes to “The Virgen of Guadalupe”, Mexico’s very own version of the BVM. She is always portrayed surrounded by “rays”, which could also correlate with broadcasting. I had no choice but to spend my first nine years in the New Mexico county of the same name. [Hauser-OK]
- 730 **CUBA** *R.Progreso*, La Fe OCT 13 1001 – Over CKAC; canned ID, “Radio Progreso, cadena nacional, la onda de la alegría, transmitiendo desde la Habana Cuba, primer territorio libre en América.” [Conti-NH]
- 730 **MEXICO** XEX, *W Deportes*, México, CMDX SEP 29 0356 – Spanish football [soccer] live, websites ending in .mx, ID “Duble-ve Deportes,” slogan “Los mejores partidos de la Liga MX,” and “W Deportes, conectamos su pasión,” PSA del gobierno de México. Very strong tonight, albeit with much fading sometimes. I am happily surprised that my first Mexican log since moving here is not a border blaster but from the capital city, at 1991 km / 1237 miles. [Bierwirth-AL]
- 770 **MEXICO** XEACH Monterrey, NL OCT 12 0638 – Trying to confirm whether KKOB be still on the air; Spanish is atop, 0641 ‘Estilo de Vida’ program name; 0645 Fórmula promo, so has to be XEACH, 25/1 kW per IRCA and mwlist. However, at 0701 recheck, no Spanish, off? Supposedly 24h per IRCA. [Hauser-OK]
- 780 **COLOMBIA** HJVF *R.Viva*, Pasto, Nariño OCT 7 0619 – Singing “Radio Viva” jingles, folk-pop Spanish vocals, man “...en Radio Viva, más Viva.” Parallel station stream. Fair-good on peaks over semi-nulled WBBM. First time logging this one. [Krueger-FL]
- 790 **CUBA** *R.Reloj*, Holguín//Pinar del Río OCT 12 0103 – In addition to the Morse code IDs, they fade up strong enough to actually listen to the news a bit, mentioning Cuba. [Bierwirth-AL]
- 800 **MEXICO** XEERG, *RG la Deportiva*, Ojo de Agua, NL OCT 11 0647 – Near-local KQCV preacher hit by extremely distorted interference, i.e. XEERG still unfixed. OCT 12 0646 – Distorted interference to KQCV, still XEERG. We don’t notice this earlier in ‘primetime’. [Hauser-OK] OCT 12 0922 – Back on again with massive distortion blob, traces of Spanish pop in the noise. [Krueger-FL] OCT 14 0621 – Still distorted music interfering with KQCV. OCT 20 0101 – Heavy distorted music interfering with KQCV, so now I have heard XEERG earlier than late at night. [Hauser-OK]
- 810 **BAHAMAS** ZNS3 Freeport OCT 12 0959 – Over/under WGY; instrumental national anthem. [Conti-NH]
- 840 **CUBA** CMHW *Doblevé*, Santa Clara OCT 12 0400 – Fair; choral national anthem and canned ID with signature music, “Esta es Doblevé, desde Santa Clara...” [Conti-NH]
- 840 **CUBA** CMKC *R.Revolución*, Palma Soriano OCT 8 0359 – Over/under WHAS; choral national anthem, canned ID beginning with CMKC jingle. [Conti-NH]
- 870 **CUBA** *R.Reloj* synchros OCT 12 0400 – Good; “Doce de la noche en la Habana Cuba,” and worldwide time checks with doorbells. [Conti-NH]
- 900 **MEXICO** XEW México, CMDX OCT 12 0646 – ID in passing as KHOZ, country music. That’s in Harrison, Arkansas, U1 1000/62 watts, address on Radio Avenue per NRC AM Log. More importantly, where’s XEW? Remember when it owned 900 at night, 250 kW? IRCA Mexican Log 2024 says it’s 24h 100/100 kW still on AM; but current mwlist and consequently WRTH 2024 still claim 250 kW, and another Mex on 900, 10/2.5 kW, XEOK *Amor*, Monterrey, which is totally missing from IRCA Log. Tim Hall replies: “I checked my notes and found that XEOK turned off their AM on or before May 2020. A listener in Monterrey reported the shutdown of the AM to one of the many Mexican radio Facebook groups that I follow as I try to keep the Mexican Log up to date.” [Hauser-OK]

- 910 **COLOMBIA** HJMY, RCN, San Andrés, Islas San Andrés y Providencia OCT 13 0705 – Bubbling up briefly with RCN ID between news items. [Krueger-FL]
- 990 **MEXICO** XET *La T Grande*, Monterrey, NL OCT 12 0956 – “La T Monterrey” non-ID into Mexi-tunes. [Krueger-FL]
- 1000 **COLOMBIA** HJAQ, RCN, Cartagena OCT 13 1000 – Poor, over Cuba; RCN sounder and time marker. [Conti-NH]
- 1000 **CUBA** *R.Artemisa*, Artemisa OCT 13 0400 – Fair, over HJAQ; sign-off announcement with flute music, choral national anthem, audio sounded sour like a bad Fidelipac cart. [Conti-NH]
- 1020 **CUBA** *R.Artemisa*, Bahia Honda OCT 13 0400 – Good; canned sign-off/ID with flute music, “Radio Artemisa finaliza sus transmisiones diarias, patria o muerte venceremos,” choral national anthem then off the air. 1020 has good audio, not the sour audio of 1000 kHz. [Conti-NH]
- 1060 **MEXICO** XERDO *La Raza* 1060, Matamoros, Tamps. OCT 12 1042 – Mexican songs, heard ID “Mil Sesenta” which could be anything. Not parallel 6185 where I hear classical, so not *R.Educación*. Finally they fade up with an ID, “La Raza Mil Sesenta.” [Bierwirth-AL]
- 1070 **CUBA** *R.Guamá*, Guane OCT 8 0401 – Over CHOK; ascending chimes marking the hour and choral national anthem. [Conti-NH]
- 1140 **CUBA** *R.Musical Nacional*, Santa Clara OCT 12 0400 – Fair; choral national anthem and ID with signature harp music. [Conti-NH]
- 1140 **CUBA** CMIP *R.Surco*, Morón OCT 8 0401 – Under WRVA, het from 1141 kHz; choral national anthem and canned CMIP *R.Surco* ID. [Conti-NH]
- 1141 **CUBA** unknown location OCT 20 0304 – The het upon 1140 stations mainly XEMR, is back from presumed Cuba so the power must be back on. Immediately retune to 890 to check for 889/891 carriers, not yet, but WLS news is just now saying that power has been restored. [Hauser-OK]
- 1152.1 unID OCT 7 0302 – JBA carrier; in addition to 1141.0 presumed Cuba. OCT 14 0316 – Carrier/het again. Anyone else hearing this? [Hauser-OK]
- 1540 **BAHAMAS** ZNS1 OCT 12 0358 – Good; reading of the constitution, instrumental national anthem, midnight time check and ID. [Conti-NH]
- 1670 **MEXICO** XEFCR *Focus Radio*, Reynosa, Tamps. OCT 12 0125 – Cheesy Spanish songs, slogan “buena música...”, fighting with WMGE. Finally ID as “Focu[s] Radio” apparently with that silent s that you hear sometimes. Fair signal, but fading and interference. [Bierwirth-AL]

INTERNATIONAL NEWS

CUBA: A nationwide electricity blackout on Friday, October 18, resulted in the shutdown of all radio stations into the weekend. The blackout was reported to be due to failure of the Antonio Guiteras power plant which set off a chain reaction while Cuba is also in the midst of a nationwide fuel shortage. The *R.Rebelde* and *R.Progreso* websites were up and running Saturday with streaming audio and news reports about ongoing efforts to restore el Sistema Electroenergético Nacional (SEN). El Ministerio de Energia y Minas warned that due to the technical complexity of the process of restoring the electrical system, disconnections of subsystems may occur as plants are restarted. [www.radiorebelde.cu] DX reports indicated that a few medium wave radio stations were back on the air by Saturday night, possibly at reduced power or with a limited number of synchros per frequency, but many remained off including 530 *R.Enciclopedia* and 640 *R.Progreso*.

Dan Sys passed away on the morning of Canadian Thanksgiving, October 14th. He was Mr. Canadian Radio News to people who knew him, as he has been distributing monthly lists of all changes at Canadian radio stations since e-mail first became popular. After that, he branched out to daily updates on discussion forums, web sites and Facebook. Even radio station management relied on Dan's expertise, often asking him questions that he patiently answered. Despite never having worked a day in Radio, either paid or volunteer, Dan's knowledge proved more accurate than some Corporate Legal departments, such as 20 years ago when Legal gave the go-ahead for stations not to announce call letter IDs hourly, because the CRTC had no requirements to do such. Dan knew that the federal government's Spectrum Management department had regulations of their own, checked them out and confirmed that call letter IDs were required hourly. Several large broadcast corporations got Non-Compliance Notices from the CRTC, as a result.

Then known as Danny, he emerged in the mid-1960s as one of the more than dozen Medium Wave DXers in the Greater Vancouver area, most of them teenage boys. Some of us, including Dan, also started collecting radio memorabilia. In more recent years, Dan focused on radio station stickers but never stopped DXing. For example, shortly after CJLI-700 Calgary came on the air, Dan was having no luck hearing them, so he contacted me. It was August, so I calculated official sunrise times at CJLI and the station blocking Dan's reception, KXLX near Spokane, and discovered a 15 minute window of opportunity when CJLI was on day power and pattern, and KXLX was still on night power (they are always non-directional). Dan got up at 4:15 AM the next morning and heard CJLI; he was that dedicated to DX.

Dan's career was spent as a traditional Mail Man, for Canada Post. He retired at 55 years old but was later hospitalized with cancer and nearly died. He seemed fine after he recovered and, as the years passed, many of us forgot about his close call with death. Which is why his death caught so many of us by surprise. Dan was 72 years old.

Martin Foltz, Sarasota FL

Veries: none. Not much listening the past two weeks due to Hurricane Milton. Milton took out a couple local stations. 1450 WSDV Sarasota is still off the air, no power to the transmitter site. One new station heard with them off. I've been trying for 660 KTNN and 770 KKOB in the early morning if I wake up. No success hearing them yet. Only three of my last 10 reception reports were answered, not a good streak. I'll keep at it. 73's Martin

Linda Brodsky, Malverne NY

Happy to learn that Martin Foltz, whose property was directly in the path of Hurricane Milton, made it through without too much property damage. I hope that our other members who were affected by Helene and/or Milton are OK too.

NY metro area BCB conditions have continued to be dull. The noise level is low, but aside from the local powerhouses, most frequencies aren't even yielding the semi-local stations from CT, NJ, NH and PA. I made IQ recordings at sunset and overnight using both the Airspy Discovery and the RSPDx on different antennas, but I found nothing of interest. I hoped that with the Cuban stations off the air, something new might come up especially on the lower end of the band where they often dominate, but again, nothing heard. After seeing Mark Connelly's post on the IRCA online group, I checked 1560 on 10/19 at 0200 and again at 0900 EDT to see if the struggling WFME has come back on the air. It was not broadcasting at those hours. Checked back several times over the day and it didn't not return to the air.

The 2023 list is still online.

* Announcers from a previous season

a The San Francisco 49ers "fans" page has a map dated 2020. This page has "KGO 810", and that does not appear on the flagship list on the 49ers home page.

b The Pittsburgh Steelers' web site has a list of stations in Mexico, and I assume that the broadcasts are in Spanish.

I have not found the name(s) of the announcer(s), nor any Spanish flagship station in Pittsburgh.

c Conflict station

d RESERVED

e The Arizona Cardinals list has "Prescott-Valley KDDL/KQNA 94.3 FM". KDDL is 94.3, and KQNA is 1130. Is 1130 in the network?

f The Arizona Cardinals list has "Window-Rock KWRK / KCAZ 96.1 FM". KWRK is 96.1, and KCAZ is 99.5. Is 99.5 in the network?

g The Arizona Cardinals list has "Phoenix (old)" for both KTAR stations. The KTAR web site does not mention being a flagship station.

h The Dallas Cowboys have a Compass Radio Network Expanded Terrestrial Radio Coverage on a separate network with separate announcers.

I do not know if there is a flagship station in Dallas.

i The entravision list has some stations tagged with "*"; there is nothing on the page that describes that tag.

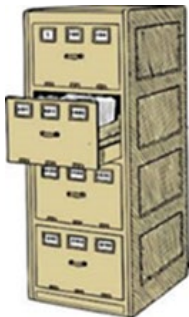

j The entravision list has some stations tagged with "***"; there is nothing on the page that describes that tag.

k This station appears in the 49ers "gotknowhow" list (by Doug) but not in the official 49ers "/fans/tv-radio" list.

From the Archives

90 Years Ago : From the October 24, 1934 issue of *DX News*: KMAC-1370 San Antonio TX (1370 was then a graveyard channel) switched on their new antenna during a recent NRC DX test and “the results were amazing,” with the station being heard clearly in the U.S. Northeast with the new antenna and not at all on the old one. WPTF Raleigh received special temporary authority to broadcast with 1 watt daytime power on 550, 620, 670, 720, 770, 800, 840, 910, 980, 990, 1230, 1320, 1330, and 1490 kc/s “to make antenna tests.”

75 Years Ago: From the October 29, 1949 issue of *DX News*: New station CPs granted included a 5,000 watt daytime-only station for Los Angeles on 1540 (today’s KMPC). Several DXers noted continued poor conditions with high levels of noise and many Latin American stations.

50 Years Ago: From the October 28, 1974 issue of *DX News*: Several DXers reported Paraguay on 645 kHz coming in unusually well. Gary Siegel submitted a write-up of the 1974 NRC convention in Toledo (actually Perrysburg), Ohio, with 54 members attending (some of whom are still NRC members after all these years).

25 Years Ago: From the October 25, 1999 issue of *DX News*: A lengthy article from the *Toledo Blade* recounted how corporate ownership of local radio stations has changed broadcasting; once there were 20 reporters for the news departments of four Toledo radio stations, and now there are only two reporters at one station (WSPD). Jean Burnell offered an initial report from the Cappahayden, Newfoundland DXpedition.

10 Years Ago: From the November 3, 2014 issue of *DX News*: Ken Chatterton announced his retirement from the NRC Board of Directors. British DXer Graham Maynard, designer of the ferrite sleeve loop antennas popular with Ultralight DXers, died on October 4.

All *DX News* back issues through Volume 90 are available online at <https://nationalradioclub.org/dx-news-archives/>.

Unreported Stations

One station – KVL1-1140 – was reported to DDXD in this issue for the first time since at least Volume 67 (1999-2000). We now have only 166 currently licensed, full-power AM stations in the United States and Canada which have not been reported to DDXD during this time. The last full list was published in issue 91-18 in July and electronically in *DXtra News* in September.
